Such routes and zones shall be determined for each year not later than the regular August meeting of the board; but nothing herein shall be construed as limiting the board in altering such routes or zones when change in the condition of the roads, or in the number of pupils being transported would justify such alteration.*

*A non-transportation zone shall comprise an area of a school district designated by the board of trustees which is impracticable, by reason of scarcity of pupils, remoteness, or condition of roads, to serve by established bus routes.*

*Whenever practicable, routes shall be so established that no bus stop shall be more than one and one-half (1<sup>1</sup>/<sub>2</sub>) miles from the intersection of the driveway of the home of any pupil otherwise eligible for transportation and the nearest public road; except that no board of trustees shall be required to route school buses or other passenger equipment over any road not maintained as a part of a highway district, county, state or federal highway system, or by the state or national forest service; except, that the primary requirements to be observed by the board of trustees are the safety and adequate protection of the health of the pupils.*

In accordance with the Child Nutrition and Healthy Hunger-Free Act of 2010, the Weiser School District has established a school wellness policy for all schools.

A healthy school environment goes beyond school meals in the cafeteria. A healthy lifestyle and maintaining of healthy weight requires a combination of healthy food choices and appropriate amount of physical activity. All foods made available on school campuses should offer children nutritious choices, and physical activity should be incorporated into the school day as often as possible. The healthy, physically active child is more likely to be academically successful.

Quality nutrition education programs which are grade appropriate and presented creatively build knowledge and skills throughout a child's school experience. Such programs address factual information and explore the healthy, social, cultural and personal issues influencing food choices. Nutrition and nutrition education are recognized as important contributors to overall health.

Comprehensive nutrition education programs extend beyond the classroom. Physical education programs, health education programs, and all after-school programs are appropriate avenues for nutrition education. The District has a comprehensive curriculum approach to nutrition in pre-kindergarten through grade twelve. All instructional staff is encouraged to integrate nutritional themes into daily lessons when appropriate.

All nutrition education will be consistent with the United States Department of Agriculture's (USDA) Dietary Guidelines for Americans.

The Weiser School District is committed to providing a school environment that enhances the development of lifelong wellness practices.

In accordance with the current guidelines Smart Snack standards; all foods and beverages sold to students on campus outside the school day (i.e., concessions) will be exempt from the Smart Snack standards; but concessionaires are encouraged to also offer healthy choices.

### Goals for Wellness Promotion

- Ensure that all children have access to adequate and healthy food choices on scheduled school days at reasonable prices;
- Provide sequential and interdisciplinary nutrition education.
- Patterns of meaningful physical activity will be provided during the school day to students to include fitness and healthy life styles.
