September 6, 2022

Dear Parents, Students, and Staff,

Saturday night (September 3, 2022) Weiser High School administration was notified that a student had made statements to others that included threatening statements against WHS and a WHS staff member. Law enforcement, as well as the staff member, were notified immediately

Upon initial investigation, law enforcement found no credible evidence that would indicate the existence of any threat to safety at WHS or to any individuals.

Weiser High School administration has taken steps beyond the initial investigation conducted by law enforcement to ensure safe conditions are maintained at WHS.

As always, we encourage all students and adults to notify school officials or law enforcement anytime they have a concern. And in this case, we applaud the actions of those who notified administration of their concern.

As a reminder to everyone, statements of a threatening or violent nature are no joking matter and will be taken seriously by school administration and by law enforcement, and the consequences can be severe. We encourage all parents to speak frankly and often with their children about appropriate conversation as well as the responsible use of technology and social media.

Respectfully,

Weiser School District Administration
