

BRINGING BROADBAND TO YOU!

Washington County is working with community leaders to bring affordable and reliable internet access to our residents!

FIRST STEP: SPEED TESTING

Speed testing will allow us to determine what the state of broadband service currently is in Washington County. Your participation in this study will help countless people gain better access to online education, telehealth services, and more.

HOW TO PARTICIPATE

Visit www.imagineidaho.org/speed-test and take our survey. Please promote it to others so that we can get as much funding for our broadband infrastructure project as possible. Every test completed means real dollars coming to Washington County to get you connected.
